- It's that easy.

- Huh!

Now, due to the effects of microgravity,  
you and your passengers  
may have suffered some  
slight bone loss.

(CHUCKLES SOFTLY)

But I'm sure a few laps

Hey. I know that guy. It's, uh, WALL-E.

- Hey, WALL-E! It's your buddy John.

- Hi, WALL-E!

(GASPS)

Hi.

Hi.

**CAPTAIN:**

**COMPUTER:**

a social gathering

at which lively dancing

would take place.

Auto, Earth is amazing!

These are called "farms."

Humans would put seeds

in the ground, pour water on them,

and they grow food, like pizza.

**AUTO:**

(GROANS)

(WHISPERING) Psst! Computer.

Define "dancing."

**COMPUTER:**

movements involving two partners

where speed and rhythm

match harmoniously with music.

**WALL-E:**

(SWEETLY) EVE.

**EVE:**

(CRASHING)

(CHATTERING)

Uh-oh.

**COMPUTER:**

closing. The lido deck is now closing.  
(MARY AND JOHN LAUGHING)

**- JOHN:**

- Make me.  
I didn't know we had a pool.

**LIFEGUARD-BOT:**

No splashing. No diving.

**- JOHN:**

- (FIZZLING) No splashing. No...  
(GASPS)  
(BEEPING)  
(IT ONLY TAKES  
A MOMENT PLAYING)  
(GASPS)  
(SWEETLY) EVE.  
# ... it only takes a moment #  
Shh!  
(MUSIC STOPS)  
(EX CLAIMS ASSERTIVELY)  
Directive.  
(WHOOSHING)

**CAPTAIN:**

(IMITATING DOCKING)  
(IMITATES BRAKES CREAKING)  
"We're here, everybody."  
"Yay, Captain! Captain, we're home!  
It's so beautiful!"  
"No. It's nothing.  
I was pleased to do this.  
"It's all about you people.  
It's not about me."  
(RATTLING)  
How?  
How did you find it?  
(SIGHING REVERENTLY)  
We can go back home!  
For the first time!

- What's it like now?

- Oh!

No, no, no. Don't tell me.

I want to see for myself.

Wait. That doesn't look like Earth.

Where's the blue sky?

(WALL-E EX CLAIMIN G)

Where's the grass?

(WALL-E EX CLAIMS)

# ... Sunday clothes

when you feel down and out #

I know that song.

# Strut down the street

and have your picture took #

They're, um,

dancing.

Yes, dancing.

# That Sunday shine is a certain sign

That you feel as fine as you look #

# Beneath your parasol... #

You made it somehow, huh, little guy?

You didn't give up, did you?

(GASPS)

Okay, then. Come on.

(GASPS)

Wait a minute.

# ... when time runs out #

# That it only... #

(WALL-E S Q UAWKS)

Huh?

Huh?

EVE?

EVE!

EVE!

Uh-oh!

WALL-E.

(PRACTICING) EVE.

EVE.

EVE.

Pathetic.

EVE.

EVE!

Oh!

Huh?

Foreign contaminant.

(GROANS IN FRUSTRATION)

There you go, little guy.

You came a long way  
for a drink of water.

Just needed someone  
to look after you, that's...

We have to go back.

(BOSUN'S WHISTLE SOUNDS)

- Auto, come down here.

- Aye, aye, sir.

WALL-E.

(WALL-E SIGHS)

WALL-E.

Auto, EVE found the plant.

Fire up the holo-detector.

Not necessary, Captain.

You may give it to me.

- You know what? I should do it myself.

- Captain.

Sir, I insist you give me the plant.

- Auto, get out of my way.

- We cannot go home.

- What are you talking about? Why not?

- That is classified, Captain.

- Give me the plant.

- What do you mean, "classified"?

You don't keep a secret  
from the captain.

Give me the plant.

- Tell me what's classified.

- The plant.

Tell me, Auto! That's an order.

Aye, aye, sir.

(JIN GLE PLA YIN G)

# Buy N Large is your superstore

We got all you need #

Just cut it off, will you?

(JIN GLE WINDS TO A S TOP)

(SIGHS) Hey, there, autopilots.

Got some bad news.

Um...

Operation Cleanup has,  
well, failed.

Wouldn't you know,  
rising toxicity levels have made life  
unsustainable on Earth.

"Unsustainable"? What?

Darn it all, we're going to have  
to cancel Operation Recolonize.

So,

(SIGHS IN EMBARRASSMENT)

Just stay the course.

Um...

Rather than try and fix this problem,  
it'll just be easier  
for everyone to remain in space.

"Easier"?

- **MAN:**

- I think...

- Huh?

- Sir, time to go.

Okay. I'm giving

Override Directive A 113.

Go to full autopilot.

Take control of everything,  
and do not return to Earth.

Repeat, do not return to Earth.

(MUFFLED) Let's get

the heck out of here.

Now, the plant.

No. Wait a minute.

Computer, when was that message  
sent out to the Axiom?

**COMPUTER:**

in the year 2110.

That's... That's nearly 700 years ago!

(SCOFFS) Auto, things have changed!

We've got to go back.

Sir, orders are "do not return to Earth."

But life is sustainable now.

Look at this plant. Green and growing.

- It's living proof he was wrong.

- Irrelevant, Captain.

What? It's completely relevant!

Out there is our home.

Home, Auto.

And it's in trouble.

I can't just sit here and do nothing.

That's all I've ever done.

That's all anyone on this blasted ship  
has ever done. Nothing!

On the Axiom you will survive.

- I don't want to survive. I want to live!

- Must follow my directive.

(EX CLAIMS IN FRUSTRATION)

I'm the captain of the Axiom.

We are going home today.

(GASPS)
